

Changes to my 329 Card

All changes or requests regarding your 329 card must go through the State of Hawaii. Your medical provider is not able to assist with any changes, as the state requires all change requests come directly from the patient. You can access the Change Form Packet at <https://health.hawaii.gov/medicalcannabisregistry/patients/changes-to-information/>

A Change Form Packet is required for the following:

- ◆ **Replacement Card**—if your card is lost or stolen
- ◆ **Update Information**—such as changes to grow site, caregiver, name (i.e. married), phone number, email, etc.
